OPERATIONS :

The Company has achieved turnover of Rs.71.02 crores during the current financial year as against Rs.107.75 crores during the previous year. The Company has achieved EBIDTA of Rs.(0.36) crores during the year as against Rs.1.97 crores during the previous year. Net loss during the year has decreased to Rs.4.38 crores from Rs.6.09 crores in the previous year.

The last three four years were very challenging for the Company in view of the slowdown in Indian economy in general and negative growth in the capital goods industry in particular. During this period various powers and other green field projects are either on hold or stuck due to various factors i.e.; environmental clearance, financial closure etc. and consequently as Key Component/ Material Suppliers Original equipment manufacturers (OEM'S), like our company, are saddled with inventory and low business prospects.

The Company is hopeful that fresh capital investment in the power, refining and petro chemical sector will revive as the Government at Center is taking steps in that direction by more reforms including opening more sectors to FDI, raising FDI limit of various sectors and implementation of GST. Your Company is well positioned as efforts made into product development over the past few years have made your company one of the few manufacturers in the country that are capable of producing tubes for the power generation industry.

The Board of Directors expresses their inability to declare any dividend due to loss incurred by the Company.

There are no amounts proposed to reserves.

The Authorised Share capital during the year has increased from Rs.10.00 Crores to Rs.15.00 Crores and Issued, Subscribed and the Fully Paid-Up Capital has increased from Rs.9.98 Crores to Rs.14.98 Crores.

There are no Companies which have become or ceased to be its Subsidiaries, Joint Ventures or associate Companies.

MANAGEMENT DISCUSSION AND ANALYSIS:-

(a) Industry Structure and Development:

The growth in the product markets has shifted from the traditional focus on oil and petrochemical sector to the power sector. This shift stands to become more prominent in the next few years as the installation of nuclear power plants becomes more critical for the growth of the economy. The Stainless steel tube and pipe industry can be classified in the organized sector, in which the Company operates has witnessed a sharp growth in capacity over the past few years. However, due to slowdown in Indian economy in general and capital goods industry in particular, these are challenging times for the industry.

(b) Opportunities and Threats:

With the new government stabilizing and taking steps to revive the economy, we are hopeful that the economic environment will improve, customer sentiment will turn positive and the industry will see better growth in coming times. The growth in the power, both thermal & nuclear, fertilizer, oil and petroleum sector offer opportunities for the Company's products. However, the pricing volatility of key raw material ingredients (such as nickel) can affect demand and usage patterns of user industry as well as affect the viability of major project

investments. Apart from this, installation of LNG terminals can have a substantial contribution in the usage of stainless steel tubular products. The threat of dumping of secondary quality products and imposition of antidumping duties by the government on major raw materials can have adverse effect on the demand.

© Outlook:

The Stainless Steel Tubular industry has strong fundamentals and the management firmly believes that this is an essential product required during the further industrialization of the country. Its expansion programme which is catered to meeting the demand for value added products is going to give the Company a chance to participate in the specialized markets which are currently dominated with few manufacturers. The approvals received from users abroad will help in redevelopment of an export market which is currently negligible in the Company's portfolio.

(d) Risk and Concerns:

The global environment continues to be marked by economic volatility. The uncertainty in the international and domestic markets may affect demand. It may also have a further impact on the Indian Rupee, which would make imports more expensive. The Company, however, is taking suitable steps to ensure protection of its margins as and when required. The high rate of interest and uncertain monsoons may continue to dampen the investment scenario in India.

(e) Internal Control Systems and their adequacy:

The Company has adequate internal control systems in technical and financial fields.

(f) Financial Performance:

The Financial Performance of the Company was under pressure during the year due to slow down in manufacturing sector, Indian economy as a whole and capital goods industry in particular.

(g) Human Resources/ Industrial Relations:

The Company has maintained good industrial relations and has maintained harmonious relations with the employees.

(h) Cautionary Statement:

Statements in this report on Management Discussion and Analysis describing the Company's objectives, projections, estimates, expectations may be "forward looking statements" within the meaning of applicable securities laws or regulations. These statements are based on certain assumptions and expectations of future events. Actual results could differ materially from those expressed or implied. ANNEXURE “B” TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Remi Edelstahl Tubulars Limited** (“the Company”) as of 31 March 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India
